BYGGA

BYGGA ON THE WATER

Architecture designed for the waterfront

Bygga manufactures floating accommodation and houseboats in Poland for private, hospitality, leisure and commercial waterfront applications.

The range combines contemporary architecture, functional interiors and direct connection to the water.

Configurations may be reviewed according to intended use and individual project requirements.

FLOATING ACCOMMODATION

Accommodation directly on the water

Floating units can extend a waterfront destination with compact, self-contained guest accommodation and a direct relationship to the water.

POTENTIAL APPLICATIONS

- Marina guest accommodation
- Waterfront guest suites
- Resorts and holiday parks
- Premium rental accommodation
- Multi-unit floating projects

HOUSEBOATS

Designed for life, leisure and accommodation

Current FLUO houseboats combine compact living space with marine systems and deck areas for private use, leisure, accommodation and rental operations.

APPLICATIONS

- Private ownership
- Marina-based accommodation
- Rental fleets
- Guest accommodation
- Tourism operations

Verified model information from current Bygga product pages.

Models vary in dimensions, layout and equipment. Product configuration is reviewed according to intended use and project requirements.

Current models include compact units for rental and marina use as well as the larger FLUO 12 River King.

INTERIOR

Designed around everyday comfort

Interior layouts combine practical living space with large glazing and a strong connection to the surrounding waterfront environment.

EXTERIOR

Make the most of the waterfront

Authentic Bygga units feature direct deck access, generous glazing and outdoor areas that bring the water into everyday use.

VISIBLE FEATURES

- Terraces and deck areas
- Large glazing
- Waterfront access
- Exterior lighting
- Roof space on selected models

CUSTOMISATION

Configure the product around its intended use

Layouts, finishes and selected equipment can be reviewed according to model, technical feasibility and project requirements.

DETAILS THAT SHAPE THE SPACE

Interior finishes, glazing, furniture, kitchen and bathroom choices can be reviewed for selected configurations.
