# A manufacturing partner for qualified opportunities

Bygga is a Polish manufacturer of floating accommodation, houseboats, modular homes and stand-alone homes.
Hot tubs and saunas are complementary wellness products.

We cooperate with selected commercial contacts who understand their local markets and can introduce qualified customers, operators, developers and investors.

Depending on the agreed cooperation model, a partner may assist with initial introductions, local communication and the collection of preliminary project requirements.

Bygga remains responsible for technical review, product configuration, final quotations, production arrangements and written customer agreements.

Products may be customised. Layouts, finishes, equipment and branding can be adapted subject to technical feasibility and written confirmation.

European manufacturing · Customisable products · Flexible cooperation models

# Reasons to introduce Bygga in your market

Introduce customers to four core accommodation categories plus complementary wellness through one manufacturing relationship.

### A BROAD PRODUCT RANGE

### MULTIPLE CUSTOMER GROUPS

Potential enquiries may come from private customers, hospitality operators, marinas, rental businesses, developers and investors.

### FLEXIBLE COOPERATION

Potential cooperation may be structured as brokerage, referral cooperation, commercial representation or project introduction, subject to written agreement.

### NO AUTOMATIC INVENTORY REQUIREMENT

A referral or representation model may allow cooperation without purchasing stock or maintaining inventory, depending on the agreed structure.

### PROJECT-SPECIFIC QUOTATIONS

Each qualified customer or project may be reviewed individually by Bygga.

### CUSTOMISABLE PRODUCTS

Layouts, interiors, exteriors, equipment and branding may be adapted where technically feasible and confirmed in writing.

### EUROPEAN MANUFACTURING

Production in Poland may support direct communication, factory visits where agreed, product inspections where agreed, and European transport planning.
